Red River Supply WarehouseR8 jg changes 2015.docx

Laura...2 small changes...not sure I can attach this here...but where I am quoting Paul..."The berms helped....there is no period....thought it would sound better to say as a connector..."was captured in Frac tanks," said the OSC and continued, "We used some of....

Since this is going out among other scientists....we might want to use the new term instead of MSDS sheets. The general public only knows MSDS but the rest of us are familiar with the newer term and it might look funny to insert this old usage.
